

Kumilachew Getie

FULL-STACK WEB DEVELOPER

SUMMARY

A highly motivated and passionate software developer with 2+ years of experience in designing, developing, and maintaining the web. Strong knowledge of programming languages such as JavaScript, Java, and C++, as well as proficiency in technologies such as React, Redux, Node.js, and Git. Proven ability to deliver high-quality software solutions on time and within budget, focusing on continuous learning and improvement.

EXPERIENCE

Freelance Remote

Full-Stack Developer March 2021- June 2022

- Experienced full-stack web developer with a proven track record of completing multiple projects utilizing JavaScript, React, Redux, Ruby on Rails, Angular, Git, C++, TypeScript, and TailwindCSS.
- Built features and applications with a mobile-responsive design.
- Tested the apps to ensure responsiveness and efficiency.

Federal Civil Service Commission, Addis Ababa, Ethiopia

System Administrator, January 2019- June 2022

- Maintained the ICSMIS system for the Ethiopian Federal Civil Service Commission.
- Monitored ICSMIS system performance for the Ethiopian Federal Civil Service Commission.
- Configured and installed local servers, executed hardware and software upgrades, and supported disaster recovery and backup procedures for the ICSMIS system.
- Monitored network communication for the ICSMIS system.
- Collaborated with the IT team and technical project manager to develop roadmaps, identify solutions to roadblocks, and mitigate the impact on server uptime for customers.

EDUCATION

MICROVERSE, June 2022-Present

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF GONDAR, September 2012- July 2016

Bachelor of Information System

- Thesis: Student Management System for Walya School.
- Degrees Were Awarded Honours.

Back-End: Ruby, Rails, MySQL, Nodejs, MongoDB

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools, Kanban

Professional: Remote Pair-Programming, Teamwork, Mentoring

PROJECTS

Hotel Booking App-This web application is a hotel reservation app that allows users to see all featured hotel rooms from the app's own external API. If the user is logged in they can reserve a room.

-**Built with** (React, Tailwind, and Redux, Rails, PostgreSQL)
[Github Link](#) [Live Demo](#)

Budget App-This budget app is about building a mobile web application where you can manage your budget: you have a list of transactions associated with a category so that you can see how much money you spent and on what.

-**Built with:** (Ruby, Postgres, and Rails)
